## PRODUCT INTRODUCTION

Oralo Mouth Wash is used in the treatment of inflammation of gums. It kills the harmful microorganisms in the oral cavity that cause swollen gums, and tartar, bad odor from the mouth. This way it cleans the affected area and speeds up healing.

Oralo Mouth Wash should be used exactly as prescribed by your doctor. Follow the doctor's instructions or use it in the dose and duration suggested by the doctor. Do not stop using it until you have finished the complete course, even when you feel better. You must have to avoid eating, drinking, or smoking for at least 30 minutes after using it.

It is a safe medicine with little or no side effects. However, it may cause staining of teeth, hard dental plaque, and taste change in some people. Inform your doctor if bothers you or does not go away.

It is not likely that other medicines you take by mouth or gel will affect the way it works but talk to your doctor before using it if you have used a similar medicine before and had an allergic reaction.

---

## USES OF ORALO MOUTH WASH

- Treatment of Mouth infection

## BENEFITS OF ORALO MOUTH WASH

In Treatment of Mouth infection

Whenever there is an overgrowth of microorganisms in our mouth, that are otherwise normally present, it can lead to unpleasant symptoms suggestive of mouth infection. These symptoms include bad breath, swollen gums, unpleasant taste changes, sensitivity of teeth to hot or cold food/liquid etc. Oralo Mouth Wash kills and prevents the growth of these bacteria, thereby relieving these symptoms. This helps in maintaining good oral hygiene.

Poor oral hygiene can be extremely embarrassing and can affect your social life. This medicine helps restore your self-confidence and makes it easier for you to go about your daily activities. Continue using it as advised by the doctor to get maximum benefit.

---

## SIDE EFFECTS OF ORALO MOUTH WASH

Most side effects do not require any medical attention and disappear as your body adjusts to the medicine. Consult your doctor if they persist or if you're worried about them

Common side effects of Oralo

- Taste change
- Staining of teeth
- Hard Dental Plaque

---
